Introduction to Computer Science, Algorithms and Problem Solving 1, Discrete Mathematics 1 and 2.

Additionally, Pre-Calculus and Calculus 1.

The Brooklyn Latin School | Class of 2017

Graduated receiving the High School and IB diploma. Took higher level Biology, History, and

English. Completed 4 years of math, including Calculus 1. Additionally, Conceptual Physics, 4 years of Latin, and 2 years of World Religions.

Hackathons and Experience

NYU hackNY Fall 2018 Hackathon **WINNER!** | Fall of '18

Won Contentful Prize at NYU hackNY 2018 Hackathon for "Best Use of Static Website". Created a web app, Qontact, that makes adding people on different social media easy with just a single QR scan. Qontact can also generate profiles that can be scanned using HTML/CSS/Java and Python and php for account databases. I worked on the front end with Qontact. More here: <https://goo.gl/Vo57rd>

CodeCanon Hackathon | Winter of '17

Worked with prototype Canon action cameras to produce home security technology through facial recognition and machine learning. <http://www.hackathon.io/mechta>

Hackchella 2018 Hackathon | Spring of '18

Developed a platform to help newly undergraduates find jobs in workfields that do not directly align with their studies. Match individuals with tech jobs that they are already capable of unknowingly.

Elementary Teacher | Summer of '16

Taught first, second, and fourth graders basic mathematics and English at a summer tutoring center.

Formulated lesson plans and developed leadership, management, and social skills.
